

WOOLGROWERS MEET.

Pass Resolutions Demanding Removal of Federal Quarantine.

FOCATELLO, Idaho, Jan. 11.—The Wool Growers' Association in convention here today adopted a resolution vigorously protesting against any change in the administration of the general land laws; opposing bitterly the leasing of public domain; severely criticizing the forest reserve policy of the government; and demanding the immediate removal of the federal quarantine on Idaho sheep. Thomas Stanford was chosen president and Sam Ballentyne, secretary-treasurer. Thirty-eight delegates to the National Convention in Helena were named.

It Does The Business

Mr. E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve. "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c at Chas. Rogers' drug store.

BIG RE-ORGANIZATION PLAN.

NEW YORK, Jan. 11.—The plan for re-organization of the financial affairs of the Westinghouse Electric and Manufacturing Company which has just been completed by the committee, has as its principal features the creation of a first mortgage for about \$46,000,000 and the issuance under it of bonds which will be exchanged dollar for dollar for the companies present obligations and also the raising by President Geo. Westinghouse and his friends of \$7,000,000 cash in return for which stock of the company will be transferred to them.

Bad breath has probably broken off more matches than bad temper, and that's a good many. The best cure for bad breath is the tonic-laxative, Lane's Family Medicine.

LAUNDRIES.

THOSE PLEATED BOSOM SHIRTS
The kind known by dressy men in the summer, are difficult articles to launder nicely. Unless you know just how to do it, the front pleats won't iron down smooth, and the shirt front will look mussed. Our New Press Ironer removes them without rolling or stretching. Try St. Troy Laundry, Tenth and Duane. Phone Main 1991.

PLAIN FIGURES ON COINS.

WASHINGTON, D. C., Jan. 13.—With the close of business hours on December 31, the United States mint at Philadelphia stopped coining the famous St. Gaudens gold coins with the date printed in Roman numerals. As soon as new dies can be made, the minting for this year will be resumed, but the date will hereafter be in Arabic—just plain "1908", so that everyone can read it intelligently without undertaking mental calisthenics. This change is not to be made as the result of the many criticisms which have been directed against the new coins, but is made necessary by reason of the fact that MCMVIII has one too many figures to go on the coin as designed. Owing to this reversion to the old-style date, it is expected that the coins of the new issue will be even more highly prized than heretofore. Not a few of the curious ones who secured two or three of the first issue as souvenirs were persuaded to part with them at a premium of from 15 to 25 per cent, but some were far-sighted enough to see that later on the demand would be greater and the premium consequently larger, and these expect to profit well from their incursion to the realms of high finance.

How to Avoid Pneumonia

IN THE BRITISH ZOO.

NEW YORK, Jan. 11.—Hoping to have all three specimens of prong-horned antelope which President Roosevelt has given the London Zoological Society in good condition when an attaché of that institution, now on his way, arrives here, attendants at the Bronx Zoological Park, are working hard to save the life of one female which has been ill since its arrival at the Zoo from Yellowstone Park. They have not yet given up hope, but are not over-expectant of restoring the ailing animal to health. The antelope, two females and a male, were captured in the park by Major-General S. B. Young, superintendent of the Yellowstone, and were sent to the local Zoo for safe-keeping, pending the arrival of a custodian for the European trip.

Special Announcement Regarding the National Pure Food and Drug Law

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. T. F. Laurin, Owl Drug Store.

AIRSHIPS FOR THE ARMY.

WASHINGTON, D. C., Jan. 13.—Residents of Washington and visitors who expect to be here for a few weeks are looking forward with considerable interest to the tests which the War Department is to make with aeroplane and dirigible balloons at Fort Myer, Va. From these tests the reviewing board made up of experts from the signal corps, will decide upon the nature of the airship to be purchased by the Department for the use of the army. Captain Charles de F. Chandler, the balloon expert of the signal corps, left Washington a few days ago under orders from Secretary Taft to proceed to Fort Omaha, Nebr., and Fort Leavenworth, Kas., to deliver lectures before the aeronautic schools at those posts on the progress of military balloon work. Captain Chandler will return to Washington in time to be present at the opening of the proposals for aeroplane and dirigible balloons for which the War Department advertised some time ago.

One faction of the Democratic party wants a Southern candidate for president, another prefers a Western man and others are for an Eastern, Northern or Middle man. Looking the whole field over it is apparent that Colonel Bryan is the only candidate who fulfills all of these requirements.

NATURE
AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue could tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

Probably it is your stomach and not your heart that causes pain in neighborhood of the heart. If it is, Lane's Medicine will give relief.

Mr. Williams, of Mississippi, suggested twice to Mr. De Armond of Missouri that the floor of the House is not the proper place to give the lie direct. The nation has provided the House with a palatial new building for its

private use, reached by a rapid transit subway, and the proprieties suggest that the slugging be transferred to the marble corridors of the exclusive edifice of the excitable branch.
